Date: 6th January 2023

Completion of PMT / PET Process

Physical Measurement Tests and Physical Efficiency Tests (PMT / PET) in the ongoing process of Recruitment of 2022 have been conducted from 8th December 2022 onwards at 12 Venues: Hyderabad (24 Days), Nalgonda (23 Days), Rachakonda (23 Days), Cyberabad (22 Days), Warangal (22 Days), Khammam (22 Days), Mahbubnagar (22 Days), Karimnagar (20 Days), Nizamabad (11 Days), Adilabad (10 Days), Siddipet (10 Days) and Sangareddy (9 Days), the PMT / PET Process successfully concluded on **5th January 2023**.

Simplified PMT / PET Process – Better Percentage of Qualification

The present PMT / PET Process notified on the basis of the relevant Government Orders – with an objective to make the process simpler, swifter, equitable, formidable (against intervention and manipulation) ushered in several improvements including –

- Having only 1 Run Event equitably to both Male and Female Candidates (earlier Men had 2 Run Events and Women had 1 Run Event)
- Having only 3 PET (Physical) Events (RFID Run, Long Jump, Shotput) for both Male and Female Candidates by removing High-Jump Event for the Men completely (earlier Men had 5 PET Events and Women had 3 PET Events)
- Doing away with the Chest Measurement for Male Candidates – thus making PMT (comprising of only Height Measurement) equitable for both Men and Women
- Precluding all chances of data-manipulation by making Run Event (with RFID Digital Readings) as the only Merit-Event for Selection in Armed Police, Special Police and SPF
- Having Long Jump and Shotput (with 3 chances each) both as Qualifying Events only for Men as well as Women – wherein **83% Men and 80% Women Candidates Qualified in Long Jump and 91% Men and 96% Women Qualified in Shotput**
- Conducting PMT using Digital Height Measurement Machines fitted with Analog (Physical) Measuring Scale on one side of the Digital Height Machine for reference and confirmatory purposes
- Institutionalizing a system of Appeal on Height Measurement on the PMT / PET Ground itself, by all the Candidates who undermeasure by 1 cm (10 mm) or less
- Having CCTV Coverage of the Physical Events as well as Height Measurement with all the clocks synchronized to the Indian Standard Time
- Zoning Surveillance during PMT / PET using Digital RFID Wristbands attached to each Candidate employed for the first time to avert impersonation frauds

Qualification of Candidates in Different Venues

Candidates who attended the PMT / PET were Biometrically verified with their records that had been created during Preliminary Written Test and only on such authentication they were administered the PMT / PET. Men and Women Candidates have been segregated and were allotted different days and as a result, substantial time-economization could be achieved due to day-wise specialization. The detailed summary of qualification of the Candidates in PMT / PET is as follows –
